No, I can override it. i don't think it's a big issue for you to get through the material.

Dear Prof. Mongor,

The syllabus states that QMB 500 is a prerequisite for this course.

I was unable to take the QMB final exam, so just to clarify, this means that I am barred from taking this accounting course as well, yes?

Best,

David

MBA's

I will see you this evening for ACC 550. I have attached the syllabus for your review. I will not bring a hard copy to class so if you want to have one with you tonight, then please print and bring one with you.

Remember that we have unfinished work on the last three chapters of the financial accounting text. So we will work on those first and then move onto managerial accounting. So tonight we will begin work on owners' equity. Notice the addition of cases to the curriculum -- we will discuss a bit about those tonight.

I hope you had a good break, you and your family are in good health, and you are ready to move forward to complete your MBA.
